

I apologize for cross-postings!

## Call for Papers & Participation to pHealth 2019

Genoa, Italy, 10 – 12 June 2019

<https://phealth2019.unige.net>

Dear Colleague,

I thank you very much for your support in one or more of our pHealth conferences as well as related event of the European Federation of Medical Informatics (EFMI). I'd like to direct your attention to the coming pHealth 2019 Conference happening from 10-12 June 2019 in Genoa, Italy.

The 2019 edition of pHealth will emphasize the interrelated aspects framing ubiquitous pervasive health: mobile technologies, wellness, micro-nano-bio smart system, bio-data management and analytics for personalized health, precision medicine and virtual care. It also addresses new potential risks for security and privacy as well as safety chances and challenges, the motivation of patients in care processes by game and gamification, and health systems challenges in developing countries. The intended outcome is intelligent and connected health devices and services leading to integrated care. The multilateral benefits of pHealth technologies for all stakeholder communities give enormous potential, not only for medical quality improvement and industrial competitiveness, but also for managing health care costs and, last but not least, improving patient experiences.

The 2019 Italian version will include workshops and related pre-conference Summer Schools for graduates and PhD students in the field, and it will showcase the Italian healthcare system and related EU and national projects. The event is hosted by the Department of Informatics, Bioengineering, Robotics and System Engineering (DIBIRS) of the University of Genoa, one of the largest universities in Italy.

All papers formatted in accordance with the IOS Press template instructions have to be submitted through the conference online system at: <http://phealth2019.unige.net/submission-instructions.aspx>. All submitted papers will be subject to a peer-review process by three independent reviewers. Accepted full papers will be included in the pHealth 2019 Proceedings published at IOS Press in the Series "Studies in Health Technology and Informatics". The series is indexed at Elsevier's EMCare, Elsevier's SciVerse Scopus, Google Scholar / Google Books, MEDLINE, PubMed, Thomson Reuters' Book Citation Index, and Thomson Reuters' Conference Proceedings Citation Index. More details can be found on the pHealth 2019 Website <https://phealth2019.unige.net>.

### Key Dates:

Paper submission deadline: 18 February, 2019

Notification of acceptance: 11 March 2019

Re-submission of camera-ready papers: 15 April, 2019

Early-bird author registration: 20 April, 2019

Conference Dates: 10 – 12 June 2019

The organizers would like to welcome you for pHealth 2019 to the city Genoa, an important area for science and industry as well as research and development in Italy. Please join us to share your expectations, experiences, projects, and results, and to open our domain up for the digitized future!

Prof. Dr. Bernd Blobel, FACMI, FACHI, FHL7, FEFMI, FIAHSI  
on behalf of the pHealth 2019 International Scientific Program Committee (SPC) and the Local Organizing Committee (LOC)
